

Take time off the City's project review process  
with the

# *Rapid Review* Service

Are you applying for a permit with the Chula Vista Planning Division? Beginning February 1, 2005, take advantage of Rapid Review, a new streamlined process that can save a significant amount of time—up to 30 days—on permit applications such as conditional use permits, variances and architectural reviews.

When you make a Rapid Review appointment, your application and plans will be reviewed while you wait to ensure all the information needed to process your application is included. Rapid Review appointments can be scheduled with a Development Services Technician (DST) and can range from 30 minutes to an hour, depending on the complexity of the project.

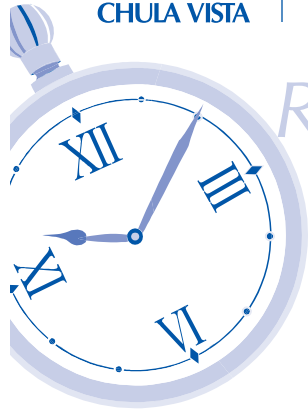

For your Rapid Review appointment, bring your completed application form, supporting documents, and the required number of plans. Please invite your architect or engineer to accompany you to answer technical questions. Completed applications will be accepted and processed by Planning's technical staff. If items are missing or incomplete, your DST will provide a list of what you will need to proceed and get you back on track.

***To find out the specific submittal requirements for the permit you want to apply for or to schedule your Rapid Review appointment, please call  
(619) 585-5621.***
